PROFILE

AI product builder who designed, built and launched Buildly, a SaaS platform for Israel's urban-renewal market, solo with AI tools: the product, an in-app AI agent, an SEO/GEO marketing site and AI-generated video campaigns. Comes from real-estate brokerage and insurance sales, where he consistently beat targets. Combines product thinking with a sales instinct: spot a real business problem, build the AI solution fast, and sell it. Hebrew native, professional working English.

CORE SKILLS

AI building: Claude Code, Base44, Bubble · AI agents · Workflow automation · Product thinking
Growth: SEO & GEO (generative-engine optimization) · AI video and marketing content
Business: B2B sales & negotiation · Pricing & proposals · Customer-facing communication

EXPERIENCE

Founder & Product Builder | Buildly — 2026 – Present

SaaS for developers, contractors and tenant organizers running urban-renewal (Pinui-Binui) projects in Israel

- Designed and built the entire product solo with AI development tools (Claude Code), from idea to live platform.
- Built an in-app AI agent that performs actions inside the system on users' behalf.
- Shipped core modules: automatic reading of land-registry (Tabu) extracts into buildings, units and owners; e-signatures by phone; feasibility analysis with branded PDF export; investor payment tracking; tasks synced to Google Calendar.
- Launched a marketing website optimized for SEO and GEO, and built an AI "campaigner" agent that generates viral marketing videos.
- Beta testers are using the platform now, with clients waiting; paid subscriptions are launching.

Car Insurance Sales Agent | AIG Israel — 2025 – 2026 (3 months)

- Consistently exceeded monthly sales targets, outperforming senior agents.
- Reached the top of the team sales leaderboards.

Licensed Real Estate Agent — Jul 2024 – Apr 2025

- Earned the Israeli real-estate brokerage license and achieved ₪300K in deal turnover in the first year.
- Negotiated between buyers and sellers through to closing.

Military Service | IDF Artillery Corps

- Combat soldier for about a year, then battalion cook: fed 80 soldiers three meals a day, managing the monthly budget, inventory, meal timing and dietary restrictions/allergies.

TRAINING

AI SaaS Development Program | nCode College (Ben Lavi) — May 2026

- AI tools, problem solving, pricing and proposals, marketing and consumer psychology, effective work with AI. Built several systems during the program.

Real Estate Brokerage License Course — 2024
